Any dispute arising out of, or in connection with, this policy shall be subject to the exclusive jurisdiction of the Maltese courts. All policies are governed by the laws of Malta.

Its aims

To provide you with a secure and effective method of building up capital in the medium to long term, with the added benefit of limited life cover.

The shortest term is 10 years, the longest is 45 years, and the plan cannot run beyond your 74th birthday.

Your plan can cover up to two people (joint life). The policy will pay out on the first death and it will then end. The policy can also cover the life of another person who is different from the owner. It is not possible to add a person to, or remove them from an existing plan. You must decide when taking out the plan if two people are to be covered.

You can choose additional benefits such as Accidental Death Benefit, Critical Illness, Permanent Total and Partial Disability and Waiver of Premium (see page 5 for further details) on commencement of the policy or on any future premium payment date, subject to underwriting by HSBC Life.

Your commitment

You agree to pay a regular premium throughout the term of your policy.

Risk factors

- ▶ If you stop paying premiums or cancel the plan during the first two years, you will get nothing back from your policy.
- ▶ If you cash in the plan before the end of the term you will not get back the full Policy Account and you may get back less than what you have paid in. Examples of surrender values are illustrated in the quotation.
- ▶ HSBC Life declares the "with profits" annual bonus rate annually in advance. Once the bonus has been added it cannot be taken away provided the plan is held to maturity. Future bonus rates are not guaranteed.

- ▶ Ir-rata tal-bonus kollu tiġi riveduta fl-aħħar tas-sena u skond kif imur il-qliġh ta' l-investimenti jista' jinghata bonus żejjed speċjali.
- ▶ Fil-każ taç-Children's Plan, meta wiehed mit-tfal miktuba fil-polza jaghlaq 18-il sena, inti tista' tiġbed sa 25% tal-Kont tal-Polza. Ma tehilx penali tat-tisrif, imma l-Kont tal-Polza jonqos u l-bonus fil-futur jakkumula fuq l-ammont li jibqa' fil-kont tal-polza tieghek.
- ▶ L-inflazzjoni tnaqqas il-valur reali tas-somma li tiehu fl-aħħar.
- ▶ Talbiet għal hlas ta' benefiċċju addizzjonali ma jithallsux jekk inti ma tgħaddiniex id-dettalji neċessarji kollha jew tipprovdi informazzjoni hażina qabel ma tibda il-polza.
- ▶ Applikazzjonijiet għal benefiċċji addizzjonali huma suġġetti għal sottoskrizzjoni u l-assigurazzjoni tibda meta aħna naċċettaw l-applikazzjoni.
- ▶ Il-prezz tal-Benefiċċju għal Mard Kritiku jista' jinbidel jekk HSBC Life jew is-suq ikollhom esperjenza negattiva fit-talbiet għal hlas jew jekk l-ispejjeż biex jerġghu ikopru dan ir-riskju jiżdiedu. F'dan il-każ, aħna ninfurmawk.

Meta thallas il-polza?

Meta l-polza timmatura, HSBC Life taghti lill-benefiċjarju il-flus akkumulati fil-Kont tal-Polza. Jekk tiġi nieqes tul iż-żmien tal-polza, HSBC Life thallas lill-benefiċjarju magħżul l-akbar somma bejn l-inqas somma garantita assicurata li tiġi ma' kull polza jew il-Kont tal-Polza, flimkien ma' xi benefiċċju ieħor ta' assicurazzjoni li inti tkun għażilt. X'inhuma l-ispejjeż tal-polza?

- Persentaġġ mill-primjum regolari tiegħek jinżamm minn HSBC Life bħala spejjeż (rata ta' l-allokkazzjoni). Dan hu marbut ma' l-età u l-ammont tal-primjum u jvarja bejn 1% u 5% tal-primjum. Filwaqt li l-età tiegħek meta tibda l-polza tiddetermina liema skala ta' hlas tapplika għalik, jekk iżżid il-primjum tista' tgawdi minn rata ta' hlas aktar baxxa.

Do I have to pay any fees or charges?

- A percentage of your regular premium is kept as a charge by HSBC Life (allocation rate). This is age and premium dependent and varies between 1% and 5% of the premium. Whilst your age at policy inception determines the age band of the allocation fee, if you increase your regular premium you may benefit from a decreased allocation fee.

Age at start of policy	Annual premium	% of premium allocated to the Policy Account
< 54 years	Lm180 – Lm239 / €419.29 – €559.03	96%
	Lm240 – Lm599 / €559.04 – €1,397.60	98%
	>Lm600 / €1,397.61	99%
55-65 years	Lm180 – Lm239 / €419.29 – €559.03	95%
	Lm240 – Lm599 / €559.04 – €1,397.60	97%
	>Lm600 / €1,397.61	98%

- An allocation rate also applies when you make additional lump sum investments in the plan. An allocation rate of 94% applies on the lump sum investment. This may change from time to time.
- There is a policy fee that varies with the premium payment frequency, as follows:

Monthly	Lm1.00 / €2.33
Quarterly	Lm2.50 / €5.82
Half yearly	Lm4.50 / €10.48
Yearly	Lm7.50 / €17.47

- You will get nothing back from your policy if you cancel it before paying 2 years' premiums.
- If you cancel the policy after more than 2 years' premiums are paid, then the policy will have acquired a surrender value which is the Policy Account less a surrender penalty. Examples of surrender values are provided on the quotation issued to you by the Financial Planning Officer.
- Early withdrawal of your investment will be processed upon receipt of your written instructions.
- If you cancel the application after medical tests have been carried out and the premium remains unchanged (standard) after the underwriting assessment, you will pay the cost of the medical tests or the premium, whichever is the lower.
