You must decide when taking out the plan if two people are to be covered.

You can choose additional benefits such as Accidental Death Benefit, Critical Illness, Permanent Total and Partial Disability and Waiver of Premium (see page 5 for further details) on commencement of the policy or on any future premium payment date, subject to underwriting by HSBC Life.

## Your commitment

You agree to pay a regular premium throughout the term of your policy.

## Riskji

- Il-kapital u l-bonus miġmugħi jibqgħu protetti sakemm l-investiment jinżamm kollu sa ma tagħlaq il-polza. Jekk twaqqaf il-polza qabel iż-żmien tkun trid thallas xi spejjeż.
- Jekk tieqaf thallas il-primjums jew tikkanċella l-polza fl-ewwel sentejn, ma tieħu xejn lura mill-polza tiegħek.
- Jekk tikkanċella l-polza qabel iż-żmien miftiehem ma tieħux il-Kont tal-Polza kollu u jista' jkun li tieħu inqas milli tkun hallast. Eżempji ta' valuri ta' tisrif jidħru fuq il-kwotazzjoni.
- HSBC Life tiddikjara r-rata annwali ta' bonus "bi qligh" kull sena bil-quddiem. Malli dan il-bonus jiżdied mal-polza, ma jistax jerġa' jitnaqqas sakemm il-pjan jinżamm shih sa meta tagħlaq il-polza. Ir-rati ta' bonus fil-futur m'humiex garantiti.
- Ir-rata tal-bonus kollu tiġi riveduta fl-ahħar tas-sena u skont kif imur il-qligh tal-investimenti jista' jingħata bonus żejjed speċjali.
- Fil-każ taċ-Children's Plan, meta wieħed mit-tfal miktuba fil-polza jagħlaq 18-il sena, inti tista' tiġibed sa 25% tal-Kont tal-Polza. Ma teħix penali tat-tisrif, imma l-Kont tal-Polza jonqos u l-bonus fil-futur jakkumula fuq l-ammont li jibqa' fil-kont tal-polza tiegħek.
- L-inflazzjoni tnaqqas il-valur reali tas-somma li tieħu fl-ahħar.
- Talbiet għal hlas ta' benefiċċju addizzjonali ma jithallsux jekk inti ma tghaddilniex id-dettalji neċċesarji kollha jew tipprovd informazzjoni hażina qabel ma tibda l-polza.
- Applikazzjoniet għal benefiċċji addizzjonali huma suġġetti għal sottoskrizzjoni u l-assigurazzjoni tibda meta aħna naċċettaw l-applikazzjoni.
- Il-prezz tal-Benefiċċju għal Mard Kritiku jista' jinbidel jekk HSBC Life jew is-suq ikollhom esperjenza negattiva fit-talbiet għal hlas jew jekk l-ispejjeż biex jerġġu jkopru dan ir-risku jiżdiedu. F'dan il-każ, aħna ninfurmaw.

## Meta thallas il-polza?

Meta l-polza timmatura jew qabel jekk tiġi nieqsa l-ħajja assigurata f'każ li tkun intaghżlet il-polza bażika biss. Jekk jinxraw benefiċċji oħra (dawn huma mfissra taħt "X'benefiċċji oħra nista' nagħħel?"), il-polza thallas ukoll skont il-benefiċċju li jinxxtara.

Meta l-polza timmatura, HSBC Life tagħti lill-benefiċċjarju il-flus akkumulati fil-Kont tal-Polza. Jekk tiġi nieqes tul iż-żmien tal-polza, HSBC Life thallas lill-benefiċċjarju magħżul l-akbar somma bejn l-inqas somma garantita assigurata li tiġi ma' kull polza jew il-Kont tal-Polza, flimkien ma' xi benefiċċju iehor ta' assigurazzjoni li inti tkun għażiż. Jekk xi benefiċċju iehor ikun magħżul u l-ħajja assigurata ssorfri diżabbiltà jew mard tul iż-żmien tal-polza, HSBC Life thallas is-somma assigurata ta' dan il-benefiċċju lill-ħajja assigurata.

## Risk factors

- Your capital and your accumulated bonuses will be protected subject to the investment being fully maintained up to the date of maturity. Surrender of the policy before maturity will attract a charge.
- If you stop paying premiums or cancel the plan during the first two years, you will get nothing back from your policy.
- If you cash in the plan before the end of the term you will not get back the full Policy Account and you may get back less than what you have paid in. Examples of surrender values are illustrated in the quotation.
- HSBC Life declares the "with profits" annual bonus rate annually in advance. Once the bonus has been added it cannot be taken away provided the plan is held to maturity. Future bonus rates are not guaranteed.
- The total annual bonus rate is reviewed at the end of each year and depending on investment returns during the year, a special additional bonus may be paid.
- In the case of a Children's Plan, when any of the children named in the policy turns 18, you may withdraw up to 25% of the Policy Account. No surrender penalties will be charged, however, the Policy Account is reduced and future bonuses will only accumulate on the amount left in your policy account.
- Inflation reduces the purchasing power of the maturity value of your policy.
- Claims for additional benefits will not be paid out if you do not fully disclose any requested material information or you provide inaccurate information prior to commencement of the plan.
- Applications for additional benefits are subject to underwriting and life cover will commence once we accept the application.
- The premium for the Critical Illness benefit may be changed if HSBC Life or the market encounter an adverse claims experience or the applicable reinsurance costs increase, in which case we will advise you accordingly.

## When will the policy pay out?

Upon policy maturity or earlier death of the life assured if the main plan benefit is chosen. If additional benefits are chosen (these are described under "What other benefits can I choose?"), the policy will also pay according to the chosen benefit.

HSBC Life will pay the designated beneficiary the money accumulated in the Policy Account upon maturity. If you die within the policy duration (known as the term) HSBC Life will pay to the designated beneficiary the higher sum between the guaranteed minimum life assurance offered with the plan or the Policy Account, together with any additional term benefit chosen. If an appropriate additional benefit had been chosen, and the life assured suffers a disability or illness within the term of the policy, HSBC Life will pay the sum assured of the chosen benefit to the life assured.

## Do I have to pay any fees or charges?

- A percentage of your regular premium is kept as a charge by HSBC Life (allocation rate). This is age and premium dependent and varies between 1% and 5% of the premium. Whilst your age at policy inception determines the age band of the allocation fee, if you increase your regular premium you may benefit from a decreased allocation fee.

Age at start of policy	Annual premium	% of premium allocated to the Policy Account
< 54 years	€420 – €549.99	96%
	€550 – €1,389.99	98%
	=/ > €1,390	99%
54 – 65 years	€420 – €549.99	95%
	€550 – €1,389.99	97%
	=/ > €1,390	98%

- An allocation rate also applies when you make additional lump sum investments in the plan. An allocation rate of 94% applies on the lump sum investment. This may change from time to time.
- There is a policy fee that varies with the premium payment frequency, as follows:

Premium payment frequency	Policy fee per frequency
Monthly	€2.33
Quarterly	€5.82
Half yearly	€10.48
Yearly	€17.47

- You will get nothing back from your policy if you cancel it before paying 2 years' premiums.
- If you cancel the policy after more than 2 years' premiums are paid, then the policy will have acquired a surrender value which is the Policy Account less a surrender penalty. Examples of surrender values are provided on the quotation issued to you by the Financial Planning Officer.
- Early withdrawal of your investment will be processed upon receipt of your written instructions.
- If you cancel the application after medical tests have been carried out and the premium remains unchanged (standard) after the underwriting assessment, you will pay the cost of the medical tests or the premium, whichever is the lower.
