4. Description of the types of home loans available

Variable rate loans- Variable interest rates are quoted as a margin over our Home Loans Base Rate which is currently 2.25%. The Bank may change the margin and/or the Home Loans Base Rate, and as a consequence your applicable variable interest rate, at any time. Your repayment amount or the number of repayments may change whenever there is a change in the interest rate. We will advise you should there be such a change (to the repayment amount or number of repayments).

Fixed rate loans- You may choose one of our fixed interest rate options which are available for a term of 3 and 5 years. With a fixed interest rate, your repayment amount will remain unchanged for the term of the fixed interest rate option. At the end of this term your loan will switch to the applicable variable interest rate or you may choose to fix your rate for another period at the rate applicable at the time.

5. Repayment options

If the term of your loan is 20 years or more you may choose between a standard capital and interest repayment option and the HomeStart option. With a standard capital and interest repayment you will have an equated monthly repayment for the full term of the loan which will remain unchanged unless there is a change in the interest rate. With the HomeStart option you will have an interest only repayment for the first 3 or 5 years and an equated monthly capital and interest repayment thereafter.

The HomeStart option is not available if you opt for a fixed interest rate.
