

HSBC Life Assurance (Malta) Ltd

HLM International Moderately Cautious Fund

Fund No 106

HLM Fund Info Sheet As At: 28 February 2025

Investment Objectives

The HLM Fund seeks to achieve long-term total return expressed in euro by investing in a broad range of asset classes across global markets through investment in an underlying fund or funds. The underlying fund/s will invest in a blend of equities and fixed income, with a generally heavier weighting in favour of fixed income. The underlying fund/s may also invest in other financial instruments, financial derivatives and engage in leverage which may result in the overall risk exposure of the underlying fund to exceed the total net assets. The prospectus of the underlying fund/s provides further detail on the investment objective, investment policy and risk factors. For operational purposes the HLM Fund may hold a proportionately small amount of its holdings in cash.

Performance History in EUR (Bid Price)

Cumulative Performance

Last 3 months	Last 6 months	Last 12 months	Last 3 years	Last 5 years	Since Launch	Annualised since launch (*)
1.96%	3.02%	6.33%	-1.71%	-0.09%	14.95%	0.96%

(*) The annualised rate shows the average return per year since the fund's launch. Past Performance Rate is shown net of Annual Fee but excludes any other charges and taxes. Past performance should not be seen as an indication of future performance, and the value of the investment can go down as well as up. Currency fluctuations may affect the value of the investment. Any sharp fluctuations in the performance of the fund over a period of time are not necessarily represented by the performance rate or by the annualised rate indicated.

Calendar Year Performance

2015	2016	2017	2018	2019	2020	2021	2022	2023	2024
-2.5%	3.3%	5.6%	-8.3%	9.5%	4.1%	3.1%	-16.9%	6.6%	3.7%

Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. It can help you to assess how the fund has been managed in the past.

This chart shows the fund's performance as the percentage loss or gain per year over the last 10 years.

Performance is shown after deduction of ongoing charges. Any entry and exit charges are excluded from the calculation.
