

Investment Objective

The Fund seeks to achieve long-term total return in euro by primarily investing in fixed income securities denominated in Pounds Sterling through investment in an underlying fund or funds. The underlying fund may invest in financial derivatives, other financial instruments and engage in leverage which may result in the overall risk exposure of the underlying fund to exceed their total net assets. For the full investment objectives, investment policy and risk factors of the underlying fund please consult the current prospectus. For operational purposes the HLM Fund may hold a proportionately small amount of its holdings in cash.

The annualised rate shows the average return per year since the fund's launch. Past Performance Rate is shown net of Annual Management Fee but excludes any other charges and taxes. Past performance is not necessarily a guide to future performance, and the value of the investment can go down as well as up. Currency fluctuations may affect the value of the investment. Any sharp fluctuations in the performance of the fund over a period of time are not necessarily represented by the performance rate or by the annualised rate indicated. If the underlying fund is not denominated in Euros then you will be exposed to currency risk due to any fluctuations in the value of euro against the base currency of the underlying fund.
