

HLM Fund Info Sheet As At: 28 February 2025
Investment Objectives

The underlying fund or funds seeks to achieve long-term capital growth expressed in euro by primarily investing in equities of companies domiciled in, or exercising the predominant part of their economic activities in Europe. The fund places particular emphasis on companies that exhibit growth investment characteristics. Currency risk arises from fluctuations in the value of the euro against the base currency of the underlying fund. The underlying fund may invest in financial derivatives, other financial instruments and engage in leverage which may result in the overall risk exposure of the underlying fund to exceed their total net assets. For the full investment objectives, investment policy and risk factors of the underlying fund please consult the current prospectus. For operational purposes the HLM Fund may hold a proportionately small amount of its holdings in cash. When replacing an underlying fund the HLM Fund may also retain all its holdings in cash for the short period required between of settlement price and execution of the buy order.

Performance History in EUR (Bid Price)

Cumulative Performance

<i>Last 3 months</i>	<i>Last 6 months</i>	<i>Last 12 months</i>	<i>Last 3 years</i>	<i>Last 5 years</i>	<i>Since Launch</i>	<i>Annualised since launch (*)</i>
6.17%	1.55%	4.51%	17.96%	30.17%	404.04%	6.52%

() The annualised rate shows the average return per year since the fund's launch. Past Performance Rate is shown net of Annual Fee but excludes any other charges and taxes. Past performance should not be seen as an indication of future performance, and the value of the investment can go down as well as up. Currency fluctuations may affect the value of the investment. Any sharp fluctuations in the performance of the fund over a period of time are not necessarily represented by the performance rate or by the annualised rate indicated.*

Calendar Year Performance (Last 10 Years)
