Licensing status and MFSA disclaimer

The Company is organised under the laws of Malta as a multi-fund investment company with variable share capital (SICAV) pursuant to the Companies Act, 1995. The Company consists of separate classes of shares constituting segregated Sub-Funds which are segregated patrimonies.

Each Sub-Fund may also have one or more classes of shares which will not be segregated patrimonies. The Sub-Funds are regulated as collective investment schemes in Malta under the IS Act and are licensed by the MFSA with licence numbers CIS/2A, CIS/2B, CIS/2C, CIS/2D – PIF, CIS/2E and CIS/2F. The Malta Bond Fund, the Malta Government Bond Fund, the Maltese Assets Fund, the International Bond Fund and the Equity Growth Fund are retail funds and thus the shares in issue in these funds are available for subscription by the general public. On the other hand, the HSBC Property Investment Fund is licensed by the MFSA as an Alternative Investment Fund and may only be made available to Experienced Investors as defined in the Supplement to the HSBC Property Investment Fund. Thus, persons wishing to invest in the HSBC Property Investment Fund should refer exclusively to the relative Supplement of the HSBC Property Investment Fund.

The circulation of this Prospectus in Malta has also been approved by the MFSA.

The licensing of the Company does not constitute a warranty by the MFSA as to its performance and the MFSA is not in any way liable for the performance or default of the Company.

Segregated assets

The assets and liabilities of each Sub-Fund are, and shall be treated for all intents and purposes of law as, a patrimony separate from the assets and liabilities of each other Sub-Fund. Accordingly, the liabilities incurred in respect of each Sub-Fund shall be paid out of the assets forming part of the patrimony of such Sub-Fund. In the event that the liabilities of a particular Sub-Fund exceed its assets, then the proportion of liabilities in excess of the assets shall not be allocated to the other Sub-Funds. The creditors of that Sub-Fund whose liabilities exceed its assets shall have no claim or right of action against the assets of the

other Sub-Funds, and the provisions of any law or regulation in force regulating the insolvency of companies shall not be applicable. The Directors shall hold or shall cause to be held such separate accounts, records, statements and other documents as may be necessary to evidence the liabilities and assets of each Sub-Fund as distinct and separate from the assets and liabilities of all the other Sub-Funds.

In the case of classes of shares issued in the same Sub-Fund, all assets and liabilities of each such class of shares would form part of the total assets and liabilities of the Sub-Fund of which such a class of shares forms part.

Investors should, however, be aware that in the event a claim is made against the Company, if the assets attributable to a Sub-Fund in respect of which the claim is made are insufficient to cover such claim, then the creditor may nonetheless be allowed by non-Maltese courts to have recourse to the assets attributable to other Sub-Funds if such non-Maltese courts refuse to apply the protection afforded to Shareholders under Maltese law.

Malta Stock Exchange listing

Both the Income and Accumulator Shares within the Malta Bond Fund, the Malta Government Bond Fund and the Maltese Assets Fund are listed on the Malta Stock Exchange.

No application has been filed for the listing of the shares in the International Bond Fund, the Equity Growth Fund and the HSBC Property Investment Fund on any Regulated Market nor is it intended for the time being that such an application be filed.

The Directors do not anticipate that an active secondary market will develop for the shares in the Company.

This investment restriction shall not apply if the instruments are units in an open-ended collective investment scheme.

Risk factors

General risk factors

Investment in any of the Funds should be regarded as a medium to long term investment. There can be no guarantee that the investment objective of each Fund set out herein will be achieved.

The limitations arising from the size and illiquidity of some of the markets in which the Funds may invest, including the Maltese capital market, may create potential risks for Investors in that a Fund may sometimes experience delays in liquidating assets in order to maintain the liquidity requirements of that Fund.

The types of securities available on such markets may be limited, often giving little choice in terms of yield, maturities, and names of issuers of securities. Furthermore, the presence of credit institutions on such markets may also be limited. This may lead to the exposure to a particular security, sector, issuer, obligor or credit institution to be higher than would be the case in more diversified capital markets.

Investment in securities denominated in different currencies involves certain risks. These investments are subject to normal market fluctuations and to the risks inherent in all investments, including the risk of exchange rate fluctuations which may affect the value of the investment in terms of the Base Currency of a Fund, or of a Currency of Expression of a Fund or of the reference currency of the Investor, adverse international and regional political and economic developments, the possible imposition of exchange controls or other local governmental laws or restrictions applicable to such investments, potential market volatility, lack of liquidity in some markets, the possibility of fraudulent securities, and limitations on the availability and reliability of investor

information. Therefore, there are no assurances that any investment in any of the Funds will yield a profit.

Any financial instruments of the Company and its Sub-Funds that are required to be held in custody pursuant to the AIFMD shall be held in custody with the Depositary and/or its sub-custodians. Investors are hereby informed that cash and matured fiduciary deposits may not be treated as segregated assets and might therefore not be segregated from the Depositary's or sub-custodian's own assets in the event of the insolvency or the opening of bankruptcy, moratorium, liquidation or reorganization proceedings of the Depositary or its sub-custodian (as the case may be).

Where financial instruments are held with a sub-custodian of the Depositary or by a securities depositary or clearing system, such financial instruments may be held by such entities in client omnibus accounts and in the event of a default by any such entity, where there is an irreconcilable shortfall of such securities, the Company and its Sub-Funds may, subject to the provisions of AIFMD, have to share that shortfall on a pro-rata basis. Financial instruments may be deposited with clearing brokers which the Depositary is not obliged to appoint as its sub-custodians and which the Depositary shall have no liability in respect of the acts or defaults. There may be circumstances where the Depositary is relieved from liability for the acts or defaults of its appointed sub-custodians provided that the Depositary has complied with its duties in terms of AIFMD.

Where laws of a third country require that certain financial instruments be held in custody by a local entity and there are no local entities that satisfy the delegation requirements under the

AIFMD, the Depositary can discharge itself of liability in certain circumstances under certain conditions.

In the event that the Company and its Sub-Funds invest in assets through financial or legal structures which it or the Manager (acting on behalf of the Company) does not directly or indirectly control or where the Company invests in fund of funds structures or master-feeder structures where the underlying funds have a depositary (or equivalent) which keeps in custody the assets of such funds, the Depositary is under no obligation to carry out its duties on a look-through basis down to the underlying assets of such structures and will not do so.

The Depositary's duty regarding monitoring of cash flows shall not apply to cash held by financial or legal structures directly or indirectly controlled by the Company or the Manager acting on behalf of the Company.

The Company can establish an unlimited number of separate Sub-Funds, each represented by a separate or a number of classes of Shares. In terms of regulations issued under the Companies Act, a Shareholder's interest will be limited to the assets and liabilities represented by the Sub-Fund in which he invests. Investors should, however, be aware that in the event a claim is made against the Company, if the assets attributable to a Sub-Fund in respect of which the claim is made are insufficient to cover such claim, then the creditor may none the less be allowed by non-Maltese courts to have recourse to the assets attributable to other Sub-Funds if such non-Maltese courts refuse to apply the protection afforded to Shareholders under Maltese law.

The price of shares can go down as well as up and Investors may not realise their initial investment. In particular, deduction of the Initial

Fee (as applicable) means that if an Investor withdraws from the Investment in the short term he may not get back the amount he invested.

Counterparty and Settlement Risk

Settlement risk occurs when a transaction is not completed as duly agreed between the parties. This may be due to an error or omission in the necessary settlement, clearing or registration processes or due to the lack of credit worthiness of one of the parties to the transaction. Nevertheless, risk relating to unsettled transactions is considered small due to the short settlement period involved.

Counterparty risk occurs when a party to a contract fails to honour and defaults on its obligations thereunder. Funds which are party to these risks can incur considerable losses.

Equity Growth Fund

The Fund will invest both directly and indirectly through investment vehicles which provide exposure to equities. When the Fund invests in other collective investment schemes and Exchange Traded Funds they will be subject to the same risk factors as the underlying assets in which these schemes and Funds invest.

Indeed particular risks may apply to the Equity Growth Fund in view of the fact that this Fund may invest in schemes or products which are, or may be, exposed to a larger or lesser extent to emerging markets. Such investments in emerging markets can be subject to risks not normally associated with more developed markets, such as the exposure to the risks of major political and economic changes. Such investments may also be adversely affected by higher counterparty risks, greater currency risks, higher price volatility and the effect of exchange control regulations. The supervision by governmental authorities and the

legal environment of these economies may be less than adequate and some of these markets may not be subject to accounting, auditing and financial reporting standards comparable to those existing in more developed countries, thereby exposing this Fund to a greater degree of risk.

Furthermore, settlement and custody systems in emerging markets are not as well developed as those in more developed markets. Investors should also note that investment in the securities of smaller companies tend to be less liquid than the market in larger capitalised stocks and can be more sensitive to economic and other factors. In particular, smaller companies often have limited product lines, markets or financial resources.

In the event of a relatively high exposure by this Fund to one specific country or one specific economic sector, the Fund will in these circumstances face the risks normally associated with a lower diversification of assets as well as the risks, if any, which are particular to that country or economic sector in which the investment is made.

International Bond Fund

The exposure of the International Bond Fund to non-investment grade securities may involve greater risks of loss of income and principal than in those cases where exposure is to higher rated securities. Although non-investment grade securities may offer higher yields than higher rated securities, they are speculative in nature and generally involve greater price volatility and risk of default in payment of principal and income. In addition, the markets in which non-investment grade securities are traded are more limited than those in which higher-rated securities are traded.

The International Bond Fund faces risks associated with exposures to a larger or lesser

extent to emerging markets. Such investments in emerging markets can be subject to risks not normally associated with more developed markets, such as the exposure to the risks of major political and economic changes, higher counterparty risks, greater currency risks, higher price volatility and the effect of exchange control regulations. Some of these markets may not be subject to accounting, auditing and financial reporting standards comparable to those existing in more developed countries, thereby exposing the Fund to a greater degree of risks. Furthermore, settlement and custody systems in emerging markets are not as well developed as those in more developed markets.

In the event of a relatively high exposure by the International Bond Fund to one specific country or one specific economic sector, the International Bond Fund will in these circumstances face the risks normally associated with a lower diversification of assets as well as the risks, if any, which are particular to that country or economic sector in which the investment is made.

ANY INVESTOR WHO IS IN ANY DOUBT ABOUT THE RISKS OF INVESTING IN ANY OF THE FUNDS SHOULD CONSULT HIS OWN INTERMEDIARY OR OTHER LICENSED FINANCIAL ADVISER.

The shares

Description of the shares

The shares in each Fund are ordinary shares, freely transferable, and unless otherwise stated enjoy equal rights participating equally in the profits of each Fund. The Company does not intend to distribute any dividends in respect of its Accumulator Shares, and any profits will accumulate within the relevant class of Accumulator Shares. The Company will however distribute dividends in respect of its Income Shares in such amounts as may be determined by the Directors in accordance with this Prospectus.

Where the amount subscribed is not exactly equivalent to the value of an exact number of whole shares, fractional shares may be issued. Fractional shares will be issued to four decimal places. Fractional shares will be consolidated into whole shares when a holder holds enough fractional shares to make up a whole share. Fractional shares carry no voting rights.

Shares are issued in registered form and will be evidenced by entries on the Register of the Company.

Certificates will not be issued for the shares and Members shall not be entitled to demand the issue to them of a certificate representing the shares. Shares shall not have distinctive numbers.

Founder shares

The Shares subscribed by the promoters of the Company at the time of establishment of the Company are, for administrative purposes, referred to as 'Founder Shares'. The Founder Shares constitute a separate class of Shares, but do not constitute a sub-fund in the Company.

501 Shares have been subscribed by the founder subscribers as follows: HSBC Global Asset Management (Malta) Limited has subscribed to 500 Shares on its own account and HSBC Life

Assurance (Malta) Limited has subscribed to 1 Share on its own account.

Institutional shares

Another 5 shares with no nominal value are referred to as the 'Institutional Shares'. The Institutional Shares constitute a separate class of shares, but do not constitute a sub-fund in the Company. The Institutional Shares are fully paid up and subscribed by the Manager.

The holders of the Institutional Shares have the right to appoint one (1) Director of the Company by means of a written instrument. The holders of the Institutional Shares shall enjoy such right until such time as the Manager holds Institutional Shares and continues to act as Manager to any of the Funds of the Company. It also has the right to remove from office any Director appointed by it.

HBMT as Nominee

All the shares issued to Investors shall be registered, upon being issued, in the name of HSBC Bank Malta p.l.c. 'as nominee' (or in the name of its successor nominee) for the persons who apply to purchase shares in the Company. This arrangement is an implementation of the Investment Account System.

Investment account system

The Investment Account System will be operated by HBMT in Malta. Each investor shall open an account (the 'Investment Account') with HBMT by completing the appropriate application form (which will also include the terms of appointment of HBMT 'as nominee' for the Investor). Through the Investment Account System, an Investor (the 'Account Holder') may purchase and sell units in the Company by means of written instructions to HBMT. All purchases and sales will be recorded and confirmed by the issue of

statements. Furthermore, the Account Holder will periodically, at least annually, receive a valuation showing inter alia (a) the number of units held by him, (b) the current market price of each such unit (the Net Asset Value), and (c) the total value of his holdings.

Through this system HBMT will at all times have a record of the shares held by it on behalf of each Investor. The Investor remains the beneficial owner of the shares with all relative rights (other than having them registered directly in his name) and in practice the Investor will be able to exercise all the rights appertaining to the shares, through HBMT as nominee. The terms and conditions of nominee ship, under which HBMT holds the shares for Investors, are stated in the Investment Account Application Form to which the attention of the Investor is drawn.

The confirmation in writing by HBMT of a transaction involving the purchase of shares by an Investor or the repurchase of shares by the Company will be evidence of the acquisition or the transfer of title in the shares as the case may be. The beneficial ownership of any Investor's holding is acknowledged by the Company in the Articles of Association.

In view of the nominee ship by HBMT for the Investors, the name of the Investors will not appear in the Register and will be kept confidential subject to the provisions of the Professional Secrecy Act, 1994.

The fact that HBMT, as nominee, has no personal interests in the units purchased and held by itself on behalf of Account Holders is being stated as a matter of record for all effects at law.

Purchasing and repurchasing of shares

Pricing of shares

The Administrator shall calculate as at 8.30 a.m. on each Dealing Day the Net Asset Value per share for each Fund.

Where a Fund has one or more Currencies of Expression apart from the Base Currency, then the Net Asset Value per Share for that Fund shall, after the calculation thereof is made in the Base Currency, be also converted into and expressed in the applicable Currency of Expression at the appropriate commercial rates of exchange applicable on the relevant Dealing Day.

The dealing price per share for purchasing or repurchasing the shares will be equivalent to the Net Asset Value per share of the Fund expressed in the Base Currency and, if applicable, in the relevant Currency of Expression. When an Investor has opted to have his Investment Account and statements referring to one of the Currencies of Expression, then the Net Asset Value per share of the Fund as converted into that Currency of Expression shall be utilised for the purpose of determining the number of units to be issued to him or the amount of repurchase proceeds to be payable to him, as applicable.

Minimum Investment

In the case of the International Bond Fund - Accumulator Shares the Minimum Investment is of €1,000 while for the International Bond Fund - Income Shares the Minimum Investment is of €4,500 or their equivalent in any applicable Currency of Expression inclusive of the Initial Fee, or such other sum as may be fixed by the Directors and/or the Manager from time to time.

In the case of the Malta Bond Fund - Accumulator Shares and the Malta Bond Fund - Income Shares there is no minimum investment requirement.

In the case of the Equity Growth Fund - Accumulator Shares (Class A and Class B), the

Minimum Investment is of €1,000 inclusive of the Initial Fee, or such other sum as may be fixed by the Directors and/or the Manager from time to time.

In the case of the Malta Government Bond Fund – Accumulator Shares the Minimum Investment is of € 1000, while for the Malta Government Bond Fund – Income Shares the Minimum Investment is €4500, or such other sums as may be fixed by the Directors and/or the Manager from time to time.

In the case of the Maltese Assets Fund- – Accumulator Shares the Minimum Investment is of € 1000, while for the Maltese Assets Fund – Income Shares the Minimum Investment is €4500, or such other sums as may be fixed by the Directors and/or the Manager from time to time.

Holders of Shares who on or prior to 3 November 1999, held shares in the Malta Government Bond Fund and the Maltese Assets Fund shall not be subject to any Minimum Investment in relation to their existing holdings in such Funds.

The Manager and/ or the Company may, at their sole discretion, authorise HBMT to accept applications which are below the above minimum amounts.

Procedure for Investors to purchase shares

Applications for shares may be made through such Intermediaries as would have been appointed by the Manager and/or the Company. The applicant must first open an Investment Account with HBMT by completing the Investment Account Application Form which is available from all branches of HSBC Bank Malta p.l.c. The applicant shall comply with the Prevention of Money Laundering Act, 1994 as amended and the Prevention of Money Laundering and Funding of Terrorism

Regulations 2008 (the 'AML Regulations') and the Relevant Requirements referred to below.

Furthermore the applicant undertakes to provide HBMT with any information required by either HBMT or the Company (including the Manager, the Administrator or any appointed Service Provider) to comply with such AML Regulations and the Relevant Requirements.

Anti-Money Laundering Requirements

In order for the Administrator and/ or HBMT to meet their legal and regulatory obligations, relevant HSBC Group policies, or any request of a public or regulatory authority or pursuant to normal market practice which relate to the prevention of fraud, money laundering, terrorism or other criminal activities or the provision of financial and other services to any persons or entities which may be subject to sanctions (collectively 'Relevant Requirements'), the Administrator and/ or HBMT may take any necessary action including, without limitation, the checking of each prospective Investor or redeeming Investor against lists of persons, entities or organisations included on any so-called 'watch list' or website containing such information, the request of additional information or documentation as well as the interception and investigation of transactions in relation to the Fund including the source of or intended recipient of funds paid in or out in relation to the Fund.

In certain circumstances, such action may delay or prevent the processing of Investors' Instructions and the Investor agrees that the Administrator and /or HBMT may in such circumstances also refuse to process any such Instructions. In such event, where possible and permitted under applicable law, the Administrator and/or HBMT will endeavour to notify the

Investor of the existence of such circumstances as soon as is practicable.

The Administrator and /or HBMT shall not be liable for any loss or damage suffered by the Investor arising out of or caused in whole or in part by any actions which are taken by the Administrator or HBMT to comply with the Relevant Requirements.

Applications

An application to acquire shares is then made in writing using a Purchase Application Form.

HBMT will not process applications until it is satisfied with the information given in the Application Form and in compliance with the formalities required under the Prevention of Money Laundering legislation. HBMT reserves the right to reject any application to open an Investment Account or to purchase units in whole or in part. Any change to an Account Holder's personal details must be notified to HBMT immediately in writing.

Requests to buy shares (in original) which are received by HBMT on any Business Day up to 12.30 p.m. will, if accepted by HBMT, be submitted for dealing at the price calculated on the following Dealing Day. Requests received after 12.30 p.m. will be carried forward to the subsequent Dealing Day.

In all cases, applications (in original) will only be accepted if accompanied by payment in cleared funds by the above-mentioned deadline into the designated account held by HBMT for this purpose. Such clients' monies are held in an account with HSBC Bank Malta p.l.c. (the 'Bank'). The Bank has acknowledged that in its capacity as banker it will not attempt to enforce or execute any charge, right of set-off or other claim against the clients' account or combine

the clients' account with any other account. No interest is paid to Investors in respect of monies held in such clients' account and any interest accrued on such clients' monies will be retained by HBMT.

Other methods of payment and the conditions applicable to cases of acquisition of units by the transfer of securities to the Fund are subject to the prior approval of the Manager (and/ or the Company) and of the Depositary where applicable, who shall be entitled to lay down such conditions as they deem appropriate from time to time and from case to case.

In the event that a payment is received (cleared) **after** the latest time (i.e. 12.30 pm) prior to a Dealing Day or an Application Form cannot be processed due to it being incomplete or incorrect, monies will be held for the Investor in HBMT's clients' account with HSBC Bank Malta p.l.c. as bankers. No interest will be paid thereon to investors and any interest accrued on such clients' monies will be retained by HBMT.

HBMT may however on an exception basis and with the approval of the Manager accept to process an application received by the designated deadline, but in respect of which cleared monies have not yet been received, if this delay was due to error or circumstances beyond the control of the Investor or other justifiable reason acceptable to HBMT.

Purchase requests, if accepted, will be effected at the price per share calculated on the Dealing Day on which the transaction will be executed.

Settlement details are set out in the Purchase Application Form. At the time the initial investment is made, an Investor must indicate to HBMT whether he wants his Investment Account and statements to refer to the Base Currency or to a specific Currency of Expression of the relevant

Fund, and payment for the shares should then be made in the currency so identified by the Investor (the 'Payment Currency').

When payment is effected by an Investor in any currency other than the relevant Payment Currency selected by him for his Investment Account, HBMT will as soon as practicable convert such payment into that Payment Currency at the current market rate of exchange with such conversion being entirely at the cost and risk of the Investor. The converted value, denominated in the Base Currency or the chosen Currency of Expression as applicable, will then be applied, net of the relevant Initial Fee, to acquire units in the Fund. No purchases will be made until such time as a payment in a currency other than the relevant Payment Currency is so converted.

Each Investor must represent and warrant to HBMT that, among other things, he is able to buy shares without violating any applicable laws. Reference is made to the clauses of the Investment Account Application Form which are relevant in this regard.

Statements will be issued as soon as possible following the Dealing Day on which the order is processed and normally will be dispatched no later than the first Business Day following execution. Statements will contain full details of the transaction.

Subscriptions in Specie

The Company may, at its option, be entitled to receive applications for shares in the Company in accordance with the provisions of the Memorandum and Article s of Association and in accordance with applicable law.

The Company shall appoint an external expert, independent valuer in accordance with the relevant laws to draw up a valuer's report (the "Report")

The Report shall include:

- a. A description of each of the assets comprising the consideration;
- b. The value of each asset and a description of the method of the valuation which was used;
- c. A confirmation that the value of the consideration is at least equal to the net asset value of the shares to be issued in return for such consideration.

The Company shall only issue Units in the relevant Sub-Fund once the assets referred to in the Report have been transferred in favour of the Company to the satisfaction of the Depositary.

The Report and any other reports which may be required from time to time shall all be held in Malta at the registered office of the Company

Any costs associated with the valuation of the assets and or the preparation of the Report as part of the purchase of shares in specie, will be borne by the relevant prospective investor.

In addition to the price per Unit in the relevant Fund, the Company may charge additional fees to the applicants representing a dilution levy if considered appropriate by the Directors. The Directors may also, at their discretion, deduct any such fees in order to ensure fairness between existing and new investors.

Procedure for Investors to request repurchase of shares by the Funds

Investors may at any time request in writing the repurchase by the Company of their shares. Repurchase requests, in a form acceptable to HBMT, may be made to HBMT in writing.

Requests to repurchase shares (in original) which are received by HBMT on any Business Day, up to 12.30 p.m. will, if accepted by HBMT, be submitted for dealing at the price calculated on the following Dealing Day. Requests received

after 12.30 p.m. will be carried forward to the subsequent Dealing Day.

Repurchase requests, if accepted, will be effected at the price per share calculated on the Dealing Day on which the transaction is executed.

Repurchase proceeds will not be remitted to the Investor until all documents requested have been received and found to be in order.

Payment of the repurchase proceeds will be made by HBMT within 14 Business Days of the relevant Dealing Day. Such payments shall be made through the direct crediting of the Investors' bank account in Malta as indicated to HBMT. Payment of the repurchase proceeds may be delayed in the case of extraordinary circumstances, including without limitation the default or delay in payments due to HBMT as nominee from banks or other persons (including the Funds and any of its service providers). In the case of joint holders, HBMT will act in accordance with the signing instructions indicated by the joint holders at the time of opening the account or in accordance with such other signing instructions as subsequently notified to HBMT in writing by the joint holders.

Repurchase proceeds can only be remitted to a person who is a party to the investment account.

Payments shall be made in the Base Currency provided that if an Investor requests payment of the repurchase proceeds to be effected in another currency (even if in a Currency of Expression), then such conversion as effected by HBMT shall be entirely at the cost and risk of the Investor.

However, when an Investor had initially subscribed for shares in a Currency of Expression, then the repurchase payment shall be made in the same Currency of Expression as initially chosen, and if the said Investor requests

payment of the repurchase proceeds to be effected in another currency (even if in the Base Currency or another Currency of Expression), then such conversion as effected by HBMT shall be entirely at the cost and risk of the Investor.

Statements will be issued as soon as possible following the Dealing Day on which the order is effected and normally will be dispatched no later than the first Business day following execution. Statements will contain full details of the transaction.

Investors may not revoke or withdraw repurchase requests delivered to HBMT, even if the Directors elect to exercise their power of deferral.

In the case of partial repurchase requests HBMT shall comply with such requests only to the extent that the value of the remaining shares will not fall below the Minimum Investment level.

The Manager and/or the Company may nevertheless, on a case by case basis and at their sole discretion, authorise HBMT to accept partial requests, even if by so doing the value of the remaining shares falls below the Minimum Investment level.

Redemptions in specie

The Company may, when an Investor has made a repurchase request, with the approval of the Depositary and the Investor, satisfy any such repurchase instructions by the transfer to that Investor of assets of the Fund in specie.

In these circumstances, the Company shall transfer to such investor that proportion of the assets of the Company which is then equivalent in value to the shares of the Investor requesting the repurchase of shares, but adjusted as the Company may determine to reflect the liabilities of the Company.

The nature of the assets and the type of the assets to be transferred to an Investor in the aforementioned circumstances shall be determined by the Company on such basis as the Company, with the consent of the Depositary, shall deem to be fair and not prejudicial to the interests of the remaining Investors. For the foregoing purpose, the value of assets shall be determined on the same basis as used in calculating the Net Asset Value.

Deferral of repurchases

The Articles contain special provisions which allow the Directors to limit the total number of shares which may be repurchased on any Dealing Day to 5% of the outstanding shares in any Fund. In such an event the Directors will reduce all valid repurchase requests pro rata to the said 5% of the shares and shall repurchase the excess of the shares on the next Dealing Day, subject to the Directors' same power of deferral until the original repurchase requests have been fully satisfied.

Mandatory repurchase

The Directors, and/or the Manager and/or HBMT have the power to impose such restrictions as they think necessary for the purpose of ensuring that no shares in the Company are acquired or held by any person in breach of the law or requirements of any country or governmental authority. In this connection, the Company and/or the Manager and /or HBMT may (a) reject any application or (b) on notice in writing to an Investor, repurchase such shares.

In such event, the proceeds shall be held by the HBMT in its clients' account for the beneficiary and, in so far as it is permitted to do so, shall pay the same to the beneficiary in accordance with its instructions. No interest shall be payable by HBMT on such funds.

Temporary suspension of repurchase of shares

The Company has the power to suspend repurchase of shares and to repurchase only part of the shares for which repurchase requests have been received if the Company determines that the calculation of Net Asset Value is not practicable or reasonable, or that the repurchase of shares would involve the realisation of assets of the Fund which in the opinion of the Company could, if realised at that particular moment in time, adversely affect and prejudice the interest of the Investors.

No dealing in shares shall be made during any period when the repurchase of shares has been suspended.

Notice of the suspension of repurchase of shares will be given to any Investor making a repurchase request. The repurchase will then take place on the first Dealing Day following the end of the suspension.

Exchange of shares

Investors may exchange all or part of any holding of Shares in one sub-fund (the 'Original Shares') into shares in another sub-fund or in a different class of the same sub-fund; provided that an investor may only exchange his Original Shares with shares in the HSBC Property Investment Fund if such an investor qualifies as an Experienced Investor and his investment in the HSBC Property Investment Fund amounts to, at all times, to at least €10,000 or its equivalent in any other currency.

An irrevocable request to exchange shares made by an Investor shall be construed (including for tax purposes) as being a request for the repurchase of the stated number of Original Shares (save that the repurchase monies shall not be released to the Investor) and a simultaneous request for the proceeds from such repurchase to be applied in the purchase of New Shares indicated by the Investor.

The provisions on the repurchase and acquisition of shares contained in this Prospectus and the terms and conditions of the Investment Account System shall apply to such exchange of shares. The exchange of shares shall take place on the same Dealing Day at the relevant Dealing Prices.

If for any reason whatsoever the repurchase of the Original Shares and the purchase of the New Shares cannot both be completed on the same Dealing Day, then the request to exchange shares shall be processed on the next Dealing Day when such repurchase and purchase can both be completed.

The number of New Shares to be issued on exchange shall be determined in accordance (or as nearly as may be in accordance) with the following formula:-

$$NS = \frac{((A \times B) - C) \times D}{E}$$

where:-

- NS = the number of New Shares which will be issued; and
- A = the number of Original Shares to be exchanged; and
- B = the repurchase price of such Original Shares on the relevant Dealing Day; and
- C = any transaction costs and/or tax charges applicable (including any exchange charge payable); and
- D = if applicable, the rate of exchange determined by the Directors for converting the Base Currency of the Original Shares into the Base Currency of the New Shares; and
- E = the initial charge payable in respect of NS, if applicable; and
- F = the issue price of the New Shares on the relevant Dealing Day (including any commissions payable but excluding any Initial Fees).

Subject to the rights of investors holding shares in the Malta Government Bond Fund and the Maltese Assets Fund on or prior to 3 November 1999 in the relevant Sub-Funds, any request for an exchange of shares shall also be subject to the Minimum Investment requirements if any, and HBMT shall not accept any request where such Minimum Investment requirements will not be met in respect of both the Original and the New Shares.

The Manager and/or the Company may nevertheless, on a case by case basis and at their sole discretion authorise HBMT to accept such requests, even if by so doing the value of the Original Shares falls below the Minimum Investment level.

Please refer to page 87 of this Prospectus for details on any switching fees that may be applicable on an exchange of shares.

Valuation of assets and suspension of dealing

The Net Asset Value of the Fund will be calculated on each Dealing Day as stated in Appendix I hereto.

The Directors have the power to suspend calculations of the Net Asset Value in the circumstances set out in the said Appendix I.

No issue or repurchase of shares will take place during any period when the calculation of the Net Asset Value is suspended. The Company reserves the right to delay payment of repurchase proceeds to persons whose shares have been repurchased prior to such suspension until after the suspension is lifted, such right to be exercised in circumstances when the Directors believe that to make such payment during the period of suspension would materially and adversely affect and prejudice the interest of continuing Investors.

Notice of any suspension or postponement of the calculation of the Net Asset Value of the

Fund will be published in a daily newspaper and/or such other newspapers as the Directors may from time to time determine and will also be notified to the Malta Stock Exchange and the MFSA, immediately it is so determined. The MFSA and the Malta Stock Exchange have the power to suspend the dealing in shares in terms of the Guidelines or the Bye-Laws as the case may be.

Recording and issuance of Shares by the Administrator /Registrar

In view of the Investment Account System adopted by the Company in terms of its Memorandum and Articles of Association, there will only be one Registered Shareholder in the records of the Company (i.e. 'HBMT as nominee'). The Administrator is therefore bound to recognise and issue shares only to 'HBMT as nominee' and not to any other party.

It will be the sole responsibility of HBMT to observe the dealing timeframes set out in the Prospectus and to forward applications for subscription, redemption and conversion of Shares within the timeframes and in line with the procedures as agreed by HBMT and the Administrator.

Publication of share prices

Details of the most recent Net Asset Value per share may be obtained from the Manager, the Administrator and all branches of HSBC Bank Malta p.l.c. and are also published on the website www.hsbc.com.mt

If the shares of any Fund are listed, the Net Asset Value per share will be notified without delay to the Malta Stock Exchange.

The share prices may also be published in such other media as may be determined from time to time by the Directors.

Where a Fund has both income distributing and accumulating classes of shares within the same Fund, the publication of share prices shall include the respective NAV per share for each such class.

On a poll every person has one vote for every complete undivided share in the Company. An Account Holder entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses in the same way. Fractional shares shall not carry any voting rights.

The Management Agreement contains provisions indemnifying the Manager against actions and claims not resulting from fraud, wilful default or negligence of the Manager including unjustifiable failure to perform its obligations. In the absence of any of the foregoing, the Manager will not be liable to the Company.

The Manager will be entitled to receive a fee from the Company, details of which are given in this Prospectus, and to receive reimbursement from the Company of all its operating expenses in connection with the Fund, as more fully described in the Management Agreement.

Either party is entitled to terminate the Management Agreement by giving not less than three months' notice in writing to the other to expire at any time. The Management Agreement may also terminate or be terminated upon the occurrence of certain specified events therein mentioned, for example, the insolvency of either party.

A copy of the Management Agreement is available for inspection at the registered office of the Company and the Manager.

The Administrator and Registrar

Deutsche International Corporate Services (Ireland) Limited is a limited liability company registered in Ireland on 19 September 1989 with registration number 145928 and is a wholly owned subsidiary of Deutsche Bank AG.

The Administrator is regulated by the Central Bank of Ireland to provide fund administration services.

By an agreement dated 12 February 2014, entered into between the Company, Deutsche International Corporate Services (Ireland) Limited and the Manager, Deutsche International Corporate Services (Ireland) Limited was appointed as Administrator to perform certain administrative functions and services including acting as Registrar in relation to the Company and the Funds. This agreement was subsequently revoked and replaced with a new Administration Agreement dated 21 July 2014 primarily to reflect that the appointment of appointment of Deutsche International Corporate Services (Ireland) Limited to perform certain administrative functions and services including acting as Registrar in relation to the Company and the Funds was being made directly by the Company (and not the Manager).

Fund Administration Agreement

The Company appointed Deutsche International Corporate Services (Ireland) Limited to provide

certain administration functions in respect of the Company and the Funds including acting as Registrar.

The Fund Administration Agreement, as may be amended or supplemented from time to time, contains provisions indemnifying the Administrator or any of its Affiliates, members, officers, directors, employees representatives, delegates or agents (each, an 'Indemnified Person'), from and against any and all actions, proceedings, claims, liabilities, obligations, losses, damages, penalties, causes of action, demands, judgments, suits, costs, expenses or disbursements of any kind or nature whatsoever, including, without limitation, reasonable attorney's fees and expenses (the 'Indemnified Losses'), that may be imposed on, incurred by, or asserted against it or them in any way relating to or arising directly or indirectly out of the Agreement, except to the extent that the Indemnified Losses are arising out of or in connection with any Indemnified Person's negligence, gross negligence, wilful default or fraud in performing its duties under the Agreement. Furthermore, where Losses result directly from an Indemnified Person's negligence only, the Indemnified Person's liability for such Losses shall in no event exceed 150% of the aggregate amount of fees received by the Administrator for services provided in the twelve (12) month period preceding the date of the claim made against the Administrator.

The Company has further undertaken that it will not hold the Investment Manager liable for Losses and/or request the Investment Manager to make up for any Indemnified Losses which are not paid or otherwise covered by the Administrator in cases where such Losses or Indemnified Losses result from, arise out of or are in connection with an Indemnified Person's negligence, gross negligence, willful default or fraud in performing its duties under the Agreement and accordingly this shall supersede and replace any liability clause in respect of administration services provided in terms of the original investment management agreement dated 31 January 1997 as subsequently revoked and replaced by the agreement dated 2 May 2002.

The parties are entitled to terminate the Administration Agreement by giving at least 90 calendar days' prior written notice to the other parties. The Administration Agreement may also terminate or be terminated immediately upon the occurrence of certain specified events therein mentioned, for example, the insolvency of any of the parties.

A copy of the Administration Agreement is available for inspection at the registered office of the Company and the Administrator.

Terms of agreement

The Company and the Manager have entered into a depositary agreement with Sparkasse Bank Malta p.l.c. in respect of the current Sub-Funds dated 5 December 2016 (the "Depositary Agreement"), for an unlimited period of time, under the terms of which Sparkasse Bank Malta p.l.c. was appointed as the depositary of the Sub-Funds in accordance with the requirements of the AIFMD (as transposed into Maltese law).

The Depositary Agreement may be terminated by the Depositary or the Company and the Manager (by joint notice) at any time subject to prior written notice of at least nine(9) months, in accordance with the terms of the Depositary Agreement. The Depositary Agreement may also be terminated with immediate effect in certain cases outlined therein.

The Depositary is responsible for:

- (i) the safekeeping of all the assets of each Sub-Fund, which means: (a) holding in custody all financial instruments of the Company' Sub-Funds that can be held in custody in accordance with the AIFMD (as transposed into Maltese law), and (b) verification of ownership and record keeping in respect of other assets of the Company's Sub-Funds;
- (ii) cash flow monitoring in terms of Article 22 (7) of AIFMD (as transposed into Maltese law); and
- (iii) the oversight functions in terms of article 21(9) of AIFMD (as transposed into Maltese law), namely:
 - (a) ensuring that the sale, issue, re-purchase, redemption and cancellation of shares

of the Sub-Funds are carried out in accordance with the provisions of the Investment Services Act, the Rules and regulations issued thereunder, and the Articles;

- (b) ensuring that the value of the shares of the Sub-Funds is calculated in accordance with the provisions of the Investment Services Act, the Rules and regulations issued thereunder, the Articles and the valuation procedures as outlined in the applicable Investment Services Rules;
- (c) carrying out the instructions of the Manager, unless they conflict with the provisions of the Investment Services Act, the Rules and regulations issued thereunder, and the Articles;
- (d) ensuring that in transactions involving the Sub-Fund's assets any consideration is remitted to the Company within the usual time limits;
- (e) ensuring that the Sub-Fund's income is applied in accordance with the provisions of the Investment Services Act, the Rules and regulations issued thereunder and the Articles.

The Depositary is responsible for verifying the calculation of any performance fee in terms of the Investment Services Act (Performance Fees) Regulations (Legal Notice 239 of 2006), if any, and ensuring that such performance fee is payable in accordance with the relevant provisions of the same Regulations.

Pursuant and subject to the terms of the Depositary Agreement and the AIFMD (as transposed into Maltese law), the Depositary is authorised to delegate its safekeeping function to sub-custodians, delegates, nominees and/or a prime broker (a "Sub-Custodian").

Upon the Company's and the Manager's request, the Depositary has agreed to appoint HSBC Bank plc, a public limited company incorporated in England and Wales with company registration number 00014259 and with its registered office at 8 Canada Square, London, E14 5HQ ("HSBC London") as a Sub-Custodian to safe-keep financial instruments for markets covered by HSBC London and its sub-custody network.

Pursuant to the terms of the global custody agreement between HSBC London and the Depositary (the "Sub-Custody Agreement"), HSBC London may delegate its duties under the Sub-Custody Agreement to agents, sub-contractors, nominees, sub-custodians and other third parties (the "Sub-Delegates") selected by the HSBC London. HSBC London will exercise due skill, care and diligence in the selection, appointment and periodic review of its Sub-Delegates (other than "Clearing Systems", i.e. the clearance and settlement systems operated by Euroclear Bank S.A./N.V., Euroclear UK & Ireland Limited and Clearstream Banking Luxembourg S.A. and any other generally recognised market clearance facility, settlement system, dematerialised book entry system, centralised custodial depository, foreign exchange settlement system or similar facility, system or depository).

HSBC London is independent from and not affiliated to the Depositary; the Depositary deals with HSBC London on an arm's length basis, and does not receive any commissions or inducements from it in respect of assets held with it in respect of the Sub-Funds.

The liability of the Depositary in terms of the AIFMD shall in principle not be affected by any delegation of its custody function to HSBC London. The Depositary shall be liable to the

Company, in respect of the relevant Sub-Fund, for the loss of a financial instrument held in custody, by the Depositary or a Sub-Custodian to whom the custody of financial instruments held in custody has been delegated. In the case of such a loss of a financial instrument held in custody, the Depositary shall return a Financial Instrument of identical type or the corresponding amount to the Company, in respect of the Fund, without undue delay. The Depositary shall not be liable if it can prove that the loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

In case of a loss of financial instruments held in custody by a Sub-Custodian, the Depositary may discharge itself of liability if it can prove that:

- (i) the requirements for the delegation of its custody tasks as per the Depositary Agreement are met;
- (ii) a written contract between the Depositary and the Sub-Custodian expressly transfers the liability of the Depositary to the Sub-Custodian and makes it possible for the Company or the AIFM acting on behalf of the Company to make a claim against the Sub-Custodian in respect of the loss of financial instruments or for the Depositary to make such a claim on the Company's or AIFM's behalf;
- (iii) the Depositary Agreement allows a discharge of the Depositary's liability and establishes the objective reason to contract such a discharge.

The Depositary does not currently intend to enter into any agreement with HSBC London to contractually discharge its liability for the loss of financial instruments. In the event that

the Depositary wishes to appoint or use another Sub-Custodian, it may however wish to enter into an arrangement to contractually discharge itself of liability in accordance with Article 21(13) of the AIFMD or Article 21(14) of the AIFMD (as transposed into Maltese law).

Save as aforesaid, the Depositary shall be liable to the Company, in respect of the relevant Sub-Fund, for all losses suffered by it as a result of the Depositary's negligent or intentional failure to properly fulfil its obligations pursuant to the relevant provisions of the Investment Services Act (Chapter 370 of the Laws of Malta), the Investment Services Act (Custodians of Collective Investment Schemes) Regulations (S.L. 370.32) and the applicable Investment Services Rules. Otherwise, the Depositary shall not be liable for any loss or damage, save and to the extent that the AIFM or the Company suffers any loss or damage arising as a result of the negligence, wilful default or fraud on the part of the Depositary (and the Depositary shall only be so liable to the AIFM or the Company, as the case may be).

Pursuant to the Depositary Agreement, the Company agreed to hold harmless and fully indemnify the Depositary (and each of its directors, officers, employees and agents) against all actions, proceedings, claims, loss or damages, costs, demands and expenses (including reasonable pre-agreed legal and professional expenses) which may be brought against, suffered or incurred by the Depositary in relation to the Depositary's performance of its services, duties or functions under or pursuant to this Agreement or other agreements the Depositary enters into or executes because of its role as Depositary of the Fund; and the insolvency, acts or omissions of the Company, Manager, the Administrator or any other service provider, or any third party

appointed by the Company or the AIFM; except where and to the extent that the Depositary is liable for such loss or prejudice in terms of the Depositary Agreement.

Pursuant to the Depositary Agreement, the Depositary shall not re-use, and shall not grant any Sub-Custodian the right to re-use, any assets of the Funds for its own account or the account of other clients, unless otherwise agreed between the Company or the AIFM acting on behalf of the Company, and the Depositary.

The fees and disbursements and expenses of HSBC London will be charged and payable from the assets of the Sub-Funds in addition to the Depositary's fees expenses as set out in the Depositary Agreement.

The Depositary may perform banking and certain investment services (in particular, the execution and, or receipt and transmission of orders in relation to financial instruments) for the Funds. Cash of the Company and its Sub-Funds will be held by the Depositary as banker.

The Depositary does not provide any services to the Funds other than those described above. In particular, it is not responsible for the valuation of the assets of the Funds, the calculation of the Net Asset Value, or the marketing or distribution of the Fund shares. The Depositary is not involved, directly or indirectly, with the business affairs, organisation, sponsorship or management of the Company or its Funds and is not responsible for the preparation of this document or any supplement and accepts no responsibility for any information contained in this document or any supplement.

Conflicts of interest

The Directors, the Manager, the Depositary, the Administrator and other companies within their respective groups and their officers and major shareholders are or may be involved in other financial, broking, investment or other professional activities which, in the course of their business, may on occasion give rise to conflicts of interest with the Company.

In such circumstances, such persons will have appropriate regard to their respective obligations under the agreements appointing them to act in the best interests of the Company, so far as practicable having regard to their obligations to other clients or schemes, when potential conflicts of interest may arise.

Having regard to these obligations, the Company may buy investments from or sell investments to such persons, provided that such dealings are on an arm's length basis and on terms no less favourable to the Company than could reasonably have been obtained had the dealing been effected with an independent third party. Such persons may also hold shares in the Company. Should a conflict of interest arise, the Directors, Manager, Fund Administrator and Depositary will endeavour to ensure that it is resolved fairly and that the Company should not be disadvantaged.

In the course of acting as Manager for the Funds, the Manager or its directors or employees may from time to time take decisions to invest in, instruments issued by;

- (a) collective investment schemes managed by the Manager;
- (b) collective investment schemes managed by a member of the HSBC Group;
- (c) HSBC Holdings p.l.c. or its subsidiaries when these investments /instruments

are listed and traded on the Malta Stock Exchange and other International Stock Exchanges.

In order to maximise the degree of protection of the Company's interests, the Manager has undertaken that, in any other circumstance not mentioned in (a) to (c) above in such circumstances, no decision shall be taken in relation to such securities without the consent and approval of an independent person appointed by the Manager for such purpose.

The Manager shall abstain from voting in respect of any resolution on an underlying investment on which the Manager may have a conflict of interest, unless the Manager has obtained appropriate instructions to vote on such a resolution from the independent Directors of the Company.

Additionally the Manager, Depositary and Fund Administrator within their respective Group ("the parties") have established procedures which are designed to identify and manage conflicts of interests. These include organisational and administrative arrangements to safeguard the interests of the Company and its members. A key element of this policy is that persons engaged in different business activities involving a conflict of interest must carry on those activities independently of one another.

Where necessary, the parties maintain arrangements which restrict the flow of information to certain employees in order to protect Members' interests and to prevent improper access to client information.

In some cases, procedures and controls of the parties may not be sufficient to ensure that a potential conflict of interest does not damage a Company's interests. In these circumstances, the

parties may consider it appropriate to disclose the potential conflict to the Directors and obtain their formal consent to proceed. However, the parties will decline to act in any circumstance where there is residual risk of damage to the interests of the Company and its members.

Taxation

General

Investors and prospective investors are urged to seek professional advice as regards both Maltese and any foreign tax legislation applicable to the purchase, repurchase and disposal of shares in any of the Funds and to any distribution made by the Funds. The following is a summary of the anticipated tax treatment applicable to the Company and to its Members in Malta. This information, which does not constitute legal or tax advice, refers only to Members who do not deal in securities in the course of their normal trading activity.

The information below is based on tax law and practice applicable at the date of this Prospectus. Investors are reminded that tax law and practice and the levels of tax relating to each Fund and the Investors may change from time to time.

The Company

In terms of current legislation, collective investment schemes are classified as either prescribed or non-prescribed funds. In general, a prescribed fund is defined as a fund resident in Malta, which has declared that the value of its assets situated in Malta amount to at least 85% of the value of the total assets of the fund. Other Maltese resident funds which do not have such an exposure to Maltese assets and all non-resident funds are treated as being non-prescribed.

On the basis of this definition, the following Funds of the Company are classified as follows for tax purposes:

| | |
|----------------------------|---------------------|
| Malta Bond Fund | Prescribed fund |
| Malta Government Bond Fund | Prescribed fund |
| Maltese Assets Fund | Prescribed fund |
| International Bond Fund | Non-Prescribed fund |
| Equity Growth Fund | Non-Prescribed fund |

The Prescribed and non-Prescribed Funds will not derive any income or gains from immovable property situated in Malta.

Malta Bond Fund – Prescribed fund

The Fund is subject to a 15% final withholding tax on bank interest payable by banks licensed under the Banking Act, 1994 and a 10% final withholding tax on interest, discounts or premiums received from (a) the Government of Malta, (b) corporations or authorities established by law, (c) companies or other legal entities, whether resident in Malta or otherwise, in respect of public issues and (d) companies or other legal entities resident in Malta in respect of private issues.

The Fund is exempt from tax on any other income and capital gains.

Capital gains, dividends, interest and any other income from foreign securities held by the Fund may be subject to tax imposed by the country of origin concerned and such taxes will not be recoverable by the Fund or by Investors.

International Bond Fund and Equity Growth Fund – Non-prescribed funds

These Funds are exempt from Maltese income tax on any income and capital gains.

Capital gains, dividends, interest and any other income from foreign securities held by these Funds may be subject to tax imposed by the country of origin concerned and such taxes will not be recoverable by such Funds or by Investors.

Value Added Tax

Fees chargeable to the Company may be subject to VAT in accordance with applicable law. If any VAT is charged, this will not be recoverable by the Company.

Investors

Capital gains realised by Investors who are non-residents of Malta are not subject to tax in Malta. Capital gains realised by resident Investors on a repurchase of shares by the Fund, the transfer of shares to third parties or an exchange of shares are treated as follows:

Malta Bond Fund, Malta Government Bond Fund, Maltese Assets Fund – Prescribed fund

Resident Investors are exempt from tax in Malta for as long as the shares are listed on the Malta Stock Exchange and the Fund remains classified as a prescribed fund on repurchases of any of their shares by the Company.

International Bond Fund and Equity Growth Fund – Non-prescribed funds

Resident Investors may opt to be subject to a 15% final withholding tax which shall be deducted at source by the Fund on any capital gains realised by Investors. Alternatively, Investors may opt to receive any capital gains without deduction of tax in which case such Investors would be bound to declare such capital gains in their personal income tax return and would be subject to tax at the normal rates of tax which are applicable to them.

In case of transfers to third parties, the transferor is obliged to declare any capital gains in the income tax return and pay tax at the normal rates. Any capital gains on an eventual redemption will be calculated without reference to any intermediate transfer.

Capital gains arising from the exchange of shares in these Funds for shares in any other fund within the same Company are only taxable when the shares are eventually disposed of. Any gains or losses arising from the exchange of shares will be taken into account in the computation of any taxable capital gains.

The tax treatment of dividends distributed by the Funds, whether these are reinvested or otherwise, depends on the income tax status of the particular Investor and on the Fund's income tax accounts out of which the dividends are distributed as set out hereunder:

- (a) The distribution of profits derived by a prescribed fund from interest, discounts or premiums, which were subject to 10% or 15% withholding tax, will not attract any further tax in the hands of Investors and where such Investors are individuals they will not be required to declare such dividends in their income tax returns. However, such Investors will be entitled, depending on their personal circumstances, to claim a credit of the 10% or 15% tax withheld at Fund level in their income tax return.
- (b) The distribution of profits by a Fund from dividends received by that Fund out of the Maltese Taxed Account or the Foreign Income Account of other Maltese companies do not attract any further tax in the hands of Investors.
- (c) The distribution of other profits (including foreign sourced profits) to Maltese resident Investors (other than companies), or to nonresident Investors (including non-resident companies) who are owned and controlled by, directly or indirectly, or who act on behalf of, persons who are ordinarily resident and domiciled in Malta, are subject to a 15% withholding tax. Investors are not required to declare such dividends in their income tax returns. However, they are entitled, depending on their personal circumstances, to declare such dividends in their income tax return and claim a credit of the 15% tax withheld. The distribution of profits to other

persons not referred to in this paragraph (c) is not subject to withholding tax.

OECD Common Reporting Standard

A number of OECD jurisdictions including Malta have entered into multilateral agreements to automatically exchange information for tax purposes using a commonly agreed reporting standard (based on the OECD Common Reporting Standard or “CRS”). The Company is expected to collect and report data about its investors under the CRS as from 1 January 2016. This means, for example, that data about investors in the Company who are resident (for tax purposes) in a country other than Malta will be automatically communicated to the Malta tax authorities who will exchange this data with tax authorities in the investors’ country of residence.

The authorised share capital of the Company is 100,000,000 shares which are not assigned any nominal value.

The paid up share capital of the Company shall at all times be equal to the Net Asset Value of the Company as determined in accordance with the Articles.

The Directors shall exercise all the powers of the Company to allot or issue shares in the Company. The maximum number of shares which may be allotted or issued by the Directors shall not exceed the amount of 100,000,000 shares, provided, however, that any shares which have been repurchased shall be deemed never to have been issued for the purpose of calculation of the maximum number of shares which may be issued.

In respect of the registered Member (i.e. 'HSBC Bank Malta p.l.c. as nominee') the Directors have delegated to the Fund Administrator, the duties of accepting the subscription for, receiving payment for and allotting or issuing new shares and attending to all requests for the repurchase of shares by the Company and the subsequent cancellation thereof.

In respect of all Investors using the Investment Account System the duties related to the allotment and issuance of new shares as well as attending to all request for the repurchase of shares in the Funds, are undertaken by HBMT.

Except as provided in the Articles, no person shall be recognised by the Company as holding any shares on trust and the Company shall not be bound by or recognise (even when having notice thereof) any equitable, contingent, future or partial interest in any shares or (except only as otherwise provided herein or as by law may be required) any other right in respect of any

share, except an absolute right of title thereto in the registered holder. The beneficial ownership of Account Holders in shares held by HBMT is acknowledged by the Company.

The Directors shall not be bound to register more than four persons as joint holders of any share or shares and only the name and address of the first named holder need be entered in the Register. Notices sent to such person's address shall be deemed sufficient delivery to all.

Best Execution Policy

The Company is required to establish and implement effective arrangements for complying with the Best Execution requirements arising in terms of the AIFMD.

In complying with the AIFMD, the Board of Directors of the Fund have considered and approved the Best Execution Policy to be adopted by the Manager in respect of trades done on behalf of the Fund, thereby ensuring that the Manager will take all reasonable steps to achieve the best possible execution result on a consistent basis.

The Manager shall review the Best Execution Policy annually or whenever a material change occurs that may affect the Manager's ability to continue to obtain the best possible result to Investors.

A copy of this Best Execution Policy may be provided to investors upon request.

Distribution Policy

It is intended that the Company will distribute interim dividends in respect of Income Shares in such amounts as may be determined by the Directors in accordance with this Prospectus

Any final dividends will be declared by the Company's General Meeting following recommendations by the Directors.

The Directors may declare and distribute interim dividends in such amounts as appear to the Directors to be appropriate. It is intended that most or all of the net income in respect of an Income distributing class of shares will normally be distributed as interim dividends. It is expected that interim dividends, if any, will be declared on a quarterly basis in respect of interim accounting periods ending respectively on the 31 March, 30 June, 30 September, and 31 December of each year. The declaration of any such interim dividends will be made within two weeks from the end of the relevant interim accounting period, and the interim dividends (if any) so declared will be paid by not later than two months from the end of the relevant interim accounting period.

Payment of a dividend will be made to the Investor or, in the case of joint holders to the joint holders unless HBMT is requested otherwise, in which case the holders shall bear the extra costs. Payments in the Base Currency of the Fund shall be made through the direct crediting of the Investor's bank account in Malta as indicated to HBMT. Payments effected in the Currency of Expression, where applicable, shall be made by cheque.

If the relative direct credit is rejected for any reason outside the HBMT's control, HBMT shall (i) re-invest in the Investors' Investment Account the proceeds of the direct credit, less any bank charges if applicable, on the next dealing day but one following the date that notice of the rejection was received AND (ii) be deemed to have been given notice from the Investor that any future dividends will be automatically re-invested, and the resulting units added to the Investor's holding in accordance with the Prospectus AND (iii) send a statement to the investor reflecting the re-investment of the afore-said dividend proceeds.

Nonetheless, the Investor may, at any time, inform HBMT of alternative arrangements for the direct credit of subsequent dividends.

Payments shall be effected in the Base Currency of the Fund or in the Currency of Expression where applicable, unless a different arrangement has been agreed to by HBMT.

The directors reserve the right to stipulate a threshold below which dividend payments will be automatically re-invested.

The Company, the Manager and HBMT shall not be responsible for any loss or delay in transmission. Where a payment of a dividend is made by cheque (namely following any acceptance by HBMT at its entire discretion of a request by an Investor or in respect of payments effected in the Currency of Expression), a cheque which is duly endorsed shall be a good discharge to the Company, HBMT and /or the Manager.

Only those Investors holding Income Shares and who are listed on the Company's register of members as on the last day of the relevant interim accounting period (or on the last Business Day of such period if the said date does not fall on a Business Day) shall be entitled to receive the respective dividend payments for the relevant period.

The Fund will pay HBMT a fee to cover the operation of distribution of dividends – please refer to Appendix IV.

All payments are subject to any pledge of Shares duly constituted and notified to the Company as well as to any applicable fiscal laws and regulations – your attention is drawn to the section headed 'Taxation' of this Prospectus.

Investors holding Income Shares may also elect to have their dividends (less any withholding tax deductible upon payment thereof) reinvested

in further shares of that class of shares in the Fund. If an Investor wishes to opt for such reinvestment, he shall provide HBMT with written instructions at least seven working days prior to the end of the relevant interim accounting period. Reinvestment of dividends shall be effected on the same Dealing Day on which the relevant dividend will be payable to the Investor, and shall be effected at the NAV per share applicable on such Dealing Day. It is not intended for the time being that Initial Fees would be payable in respect of such reinvestment.

Investors entitled to receive dividend payments will, on or after the payment date, be sent a Dividend Certificate which shall include details in respect of the income distributed including, if required by any applicable legislation, a statement of how much of the amount to which they are entitled represents any tax deducted in respect of that income.

(a) Allocation of Income

Pursuant to the Company's Memorandum and Articles of Association, the income available for allocation in respect of the Shares shall be a sum equal to the aggregate of the income received or receivable by the Company in respect of those shares during the Accounting Period, calculated by taking into account the following additions and/or deductions :-

- (i) addition or deduction of a sum by way of adjustment to allow for the effect of sales or purchases of Investments, cum or ex dividend;
- (ii) addition of a sum representing any interest or dividend or other income accrued but not received by the Company at the end of the Accounting Period and deduction of a sum representing (to the extent that an adjustment by way of addition has been

made in respect of any previous Accounting Period) interest or dividends or other income accrued at the end of the previous Accounting Period;

- (iii) addition of an amount (if any) available for allocation in respect of the last preceding Accounting Period but not allocated in respect thereof;
- (iv) addition of a sum representing the estimated or actual repayment of tax resulting from any claims in respect of income tax relief or double taxation relief or other relief available or otherwise;
- (v) deduction of the amount of any tax or other estimated or actual liability properly payable out of the income of the Company;
- (vi) deduction of sums representing participation in income paid upon the repurchase of shares during the Accounting Period;
- (vii) deduction of such sum as the Directors may think appropriate in respect of any of the expenses provided in these Articles; PROVIDED ALWAYS that the Company shall not be responsible for any error in any estimates of income tax repayments or double taxation or other relief expected by way of taxation or of income receivable, and if the same shall not prove in all respects correct, the Directors shall ensure that any consequent deficiency or surplus be adjusted in the Accounting Period in which a further or final statement is made or such estimated income receivable is determined, and no adjustment shall be made to any dividend previously declared or to any Member to whom shares had been issued or from whom shares had been repurchased previously; and

(viii) deduction of any amounts declared as a distribution but not yet distributed.

(b) Income Allocation Dates

Any income which stands to be allocated to the income account in respect of an interim accounting period of any class of Income Shares shall be so allocated by not later than two months after the end of each interim accounting period as specified in this Prospectus for the purposes of dividend distributions, and in respect of an annual accounting period, the allocation shall be made by not later than two months after the end of the annual accounting period.

(c) Equalisation Account

The purchase price of any Shares in the Funds generally contains an element representing the accrued income earned by the shares since the start of the current dividend period.

This means that Investors buying Shares buy a percentage of net income, and the corresponding portion of the purchase price (the equalisation payment) will be notionally credited by the Funds to an equalisation account.

The equalisation account will be maintained in order to ensure that equal amounts are distributed in respect of each share of the relevant income distributing class notwithstanding different dates of issue.

When an equalisation payment has been effected, any subsequent dividends in relation to the relevant Income Shares shall include an amount corresponding to the afore-said equalisation payments and paid out of the equalisation account. However, the said amount

shall not be included as part of the dividend in the event that the Directors exercise their discretion (in terms of the last paragraph under this heading 'Equalisation Account') not to consider equalisation when determining distributions.

The repurchase price of the Share will also include an equalisation payment in respect of the net income of the Fund up to the date of repurchase, and upon the repurchase of any shares based on that repurchase price a sum equal to that part of the repurchase price of a share which reflects net income (if any) accrued up to its date of repurchase will be deemed to be an equalisation charge and debited by the Directors to the equalisation account.

In the absence of significant fluctuations between the repurchase and issue of shares, the Directors may choose not to consider equalisation when determining distributions to Investors holding Income Shares nor to pay to such Investors any excess of equalisation credits over debits. Any fluctuations between repurchases and issue of shares that could have an effect of one per cent (1%) or more on the Net Asset Value per share shall be considered significant.

Liquidation

The Company and the Sub-Funds have been established for an indefinite period and unless closed or liquidated will exist in perpetuity.

Of a Sub-Fund

A Sub-Fund may be wound up and dissolved either voluntarily or under supervision or by the Court. Upon the winding up or dissolution (whether the liquidation is voluntary, or under supervision or by the Court) of any Sub-Fund, the assets of such Sub-Fund available for distribution (after satisfaction of creditors' claims) shall be

distributed to the Shareholders of such Sub-Fund pro rata to their respective shareholding.

If any Sub-Fund shall be wound up or dissolved (whether the liquidation is voluntary, or under supervision or by the Court) the liquidator may, with the authority of an Extraordinary Resolution of the shareholders of the particular Sub-Fund, divide among such Members in accordance with the Articles of the Company, in specie the whole or any part of the assets of the particular SubFund, and whether or not the assets shall consist of property of a single kind and may for such purposes value any class or classes of property in accordance with the valuation provisions in the Articles and this Prospectus. The liquidation of any Sub-Fund may be completed and the Fund dissolved, but not so that any shareholder thereof shall be compelled to accept any asset in respect of which there is a liability.

Of the Company

The Company may be wound up or dissolved (whether the liquidation is voluntary, or under supervision or by the Court) following, or simultaneously with, the closure or winding up and dissolution of all the Funds of the Company. Upon the winding up or dissolution (whether the liquidation is voluntary, or under supervision or by the Court) of the Company, the assets of the Company available for distribution (after satisfaction of creditors' claims) shall be distributed amongst members pro rata to the number of Shares held by them.

Any proceedings in relation to the Company shall respect the legal status of each Sub-Fund as a patrimony separate from the assets and liabilities of each other Sub-Fund and proceedings under the Act shall apply mutatis mutandis to each Sub-Fund as though it were a distinct legal entity

and with such modifications as are necessary to accommodate the fact that a Sub-Fund is not a company. Any proceedings in relation to any one Sub-Fund shall not have any effect on the assets of any other Sub-Fund or of the Company itself. The term 'proceedings' as used herein refers to any proceedings in terms of Title II of Part V and of Part VI of the Act (as may be amended from time to time).

External Transactions Act

When acquiring shares in the International Bond Fund and the Equity Growth Fund, investors should comply with the External Transactions Act (Chapter 233 of the Laws of Malta) and with any rules and regulations issued thereunder.

Appendix I

Determination of net asset value

Extract from the Company's Articles :
Article 11 :

- 11.0 The Company on each Dealing Day shall determine the Net Asset Value of shares in the Company, which shall be the value of the assets less the liabilities attributable to each class of shares divided by the number of shares in issue in such class. The Net Asset Value shall be expressed in the Base Currency (or in such other currency as the Directors shall determine) as a per share figure for each share in issue (rounding down to the nearest second decimal figure of the relevant Base Currency) and shall be determined for each Dealing Day in accordance with Article 12 hereof.
- 11.1 The Company at any time may, but shall not be obliged to, temporarily suspend the determination of the Net Asset Value of the shares and the sale of such shares, and the repurchase of all or part of such shares for which repurchase requests have been received, in the following instances:
- (i) during any period (other than holiday or customary weekend closings) when any market is closed which is the main market for a significant part of the Investments comprised in the Fund to which such class of shares relates, or in which trading thereon is restricted or suspended; or
 - (ii) during any period when an emergency exists as a result of which disposal by the Company of Investments which constitute a substantial portion of the assets of the Fund to which such class of shares relates is not practically feasible; or
 - (iii) during any period when for any reason the market value of Investments of the Fund to which such class of shares relates cannot be reasonably, promptly or accurately ascertained by the Company; or
 - (iv) during any period when remittance of monies which will, or may, be involved in the realisation of, or in the payment for, Investments, comprised in the Fund to which such class of shares relates cannot be carried out at normal rates of exchange; or
 - (v) during any period when the proceeds of sale or repurchase of such shares in the Company cannot be transmitted to or from the Company's account; or
 - (vi) during any period when in the opinion of the Directors the realisation of assets of the Fund to which such class of shares relates could, if realised at that particular moment in time, adversely affect and prejudice the Members' interest in the Company.
- 11.2 The Company may elect to treat the first Dealing Day on which the conditions giving rise to the suspension have ceased, as a substitute Dealing Day, in which case the Net Asset Value calculations and all sales and repurchases of shares shall be effected on the substitute Dealing Day.
- 11.3 Any such suspension shall be appropriately published by the Company in a local newspaper approved by the Depositary and MFSA. The Company shall furthermore notify such suspension to all persons who in the opinion of the Company are likely to be affected thereby in such manner as it may deem appropriate. Any such suspension shall be notified immediately to the MFSA and the Listing Authority, if applicable.
- 11.4 The dealing in shares shall also be suspended upon the order of the MFSA or the Listing Authority in terms of the Regulations.

Appendix II

Valuation of assets

Extract from the Company's Articles :

Article 12 :

12.0 The Net Asset Value of each class of shares in the Company shall be the value of all the assets less all the liabilities of the Company attributable to such class of shares.

12.1 The value of the assets comprised in a Fund shall be ascertained on the following basis:-

(A) the value of any Investment quoted, listed or normally dealt in, on or under the rules of a Regulated Market shall be calculated in the following manner:

(i) by reference to the price appearing to the Directors to be the latest available dealing price or (if bid and offered quotations are made) the latest available middle quotation on such Regulated Market; and

(ii) if an Investment is quoted, listed or normally dealt in, on or under the rules of more than one Regulated Market, the Directors may adopt the price or, as the case may be, the middle quotation on the Regulated Market which, in their opinion, provides the principal market for such Investment; and

(iii) in the case of any Investment which is quoted, listed or normally dealt in, on or under the rules of a Regulated Market but in respect of which, for any reason:

(a) prices on that Regulated Market may not be available at any relevant time, or

(b) the value thereof based on the said prices or quotations as described in paragraphs (i) and (ii) above does not establish, in the opinion of the Directors, the fair value of

any investment, the value thereof shall be determined by such professional person as may be appointed by the Directors for such purpose or generally in relation to some or all the Investments of the Company and for such time as may be determined by the Directors.

(iv) the Directors shall not be under any liability by reason of the fact that a value reasonably believed by them to be the latest available price or, as the case may be, middle quotation for the time being may be found not to be such; and

(v) there shall be taken into account interest accrued on interest-bearing Investments up to the date at which the valuation is made unless such interest is included in the price or quotation referred to above;

(B) the value of any Investment which is not quoted, listed or normally dealt in on or under the rules of a Regulated Market shall be the initial value thereof ascertained as hereinafter provided or the value thereof as assessed on the latest valuation thereof made in accordance with the provisions hereinafter contained. For this purpose:-

(i) the initial value of such an Investment shall be the amount expended by the Fund in the acquisition thereof (including in each case the amount of the stamp duties, commissions and other expenses incurred in the acquisition thereof and the vesting thereof in the Company); or

(ii) the Directors may at any time cause a valuation to be made of any such Investment at a fair market value, by such professional person as may be appointed for such purpose by the Directors;

(C) the value of each unit or share in any collective investment scheme which

-
- provides for the units or shares therein to be realised at any time at Net Asset Value shall be the last published net asset value per unit or share;
- (D) cash, deposits and similar property shall be valued at their face value (together with accrued interest);
- (E) property other than Investments shall be valued in such manner and at such time or times as the Directors shall from time to time determine;
- (F) notwithstanding any of the foregoing sub-paragraphs, the Directors may, after consultation with the Custodian*, adjust the value of any Investment or other property or permit some other method of valuation to be used if they consider that in the circumstances (including without limitation a material volume of subscriptions or requests for repurchase of shares in the Company; or the marketability of the Investments or other property; or such other circumstances as the Directors deem appropriate) such adjustment or other method of valuation should be adopted to reflect more fairly the value of such Investment or other property;
- (G) every share allotted by the Company shall be deemed to be in issue and the capital of the Company shall be deemed to include the net amount of any cash or other property to be received in respect of each such share;
- (H) where, in consequence of any notice or repurchase request duly given, a reduction of the capital of the Company by the cancellation of shares has been or is to be effected but payment in respect of such reduction has not been completed, the shares in question shall be deemed not to be in issue and any amount payable in cash or Investments out of the capital of the Company in pursuance of such reduction shall be deducted;
- (I) where any Investment or other property has been agreed to be acquired or realised but such acquisition or disposal has not been completed, such Investment or other property shall be included or excluded, as the case may be, and the gross acquisition or net disposal consideration included or excluded as the Directors shall from time to time determine;
- (J) there shall be included in the assets an amount equal to all such costs, charges, fees and expenses as the Directors may have determined to amortise, less the amount thereof which has previously been or is then to be written off;
- (K) where an amount in one currency is required to be converted into another currency, the Directors may effect such conversion using the latest available rates of exchange as the Directors shall determine at the relevant time except where otherwise specifically provided therein;
- (L) there shall be deducted from the assets such sum in respect of tax (if any) as in the estimate of the Directors will become payable in respect of the current Accounting Period;
- (M) where the current price of an Investment is quoted ex dividend or interest, there shall be added to the assets a sum representing the amount of such dividend or interest

receivable by the Fund but not yet received;

- (N) there shall be added to the assets the amount (if any) available for allocation in respect of the last preceding Accounting Period but in respect of which no allocation has been made;
- (O) there shall be deducted from the assets the total amount (whether actual or estimated by the Directors) of any other liabilities properly payable including outstanding borrowings and accrued interest on borrowings (if any) but excluding liabilities taken into account in terms of sub-paragraph (I) above.

12.2 Notwithstanding the foregoing, when the above system of valuation would not reflect the current value of the assets accurately, the Directors shall be entitled, after consultation with the Depositary, to value the shares using the amortised cost method of valuation, whereby the Investments of the Company are valued at their cost of acquisition, adjusted for amortisation of premium or accretion of discount on the Investments, rather than at the current market value of the Investments.

12.3 Without prejudice to their general powers to delegate their functions herein contained, the Directors may delegate any of their functions in relation to the calculation of Net Asset Value to the Manager or the Depositary, to a committee of the directors or to any other duly authorised person. In the absence of wilful misconduct or manifest error, every decision taken by the Directors or any committee of the Directors or.

12.4 The Company, the Manager or the Depositary shall not be responsible for any error in calculating the value of assets if the Company, the Manager or the Depositary has acted in good faith when making such calculations, and no adjustments shall be made to the values of any assets unless the valuation error exceeds 0.5% (half a percentage point) of the Net Asset Value in which case it shall be adjusted. The MFSA shall be notified of such event together with information on such remedial action which the Company, the Manager and the Depositary propose to take to ensure that such error does not occur again.

Appendix III

Allocation of assets and liabilities

Extract from the Company's Articles :

Article 10A

10A Allocation of assets and liabilities.

10A.0 The assets and liabilities of each Fund shall be treated for all intents and purposes of law as a patrimony separate from the assets and liabilities of each other Fund.

10A.1 The liabilities incurred in respect of each Fund shall be paid out of the assets forming part of the patrimony of such Fund. In the event that the liabilities of a particular SubFund exceed its assets, then the proportion of liabilities in excess of the assets shall not be allocated to the other Funds and the creditors of that Fund whose liabilities exceed its assets shall have no claim or right of action against the assets of the other Funds.

10A.2 Without prejudice to what is provided in sub-articles 10A.0 and 10A.1 above, the assets and liabilities of each Fund shall be allocated in the following manner:-

- (i) the proceeds from the issue of shares representing a Fund shall be applied in the books of the Company to that Fund, and the assets and liabilities and income and expenditure attributable thereto shall be applied to such Fund subject to the provisions of this Article;

(iii) where the Company incurs a liability which relates to a particular Fund or Funds or to any action taken in connection with a particular Fund or Funds, such a liability shall be allocated to the relevant Fund or Funds in accordance with the interest of each Fund or Funds; provided that all liabilities of the Company irrespective of the Fund to which they are attributable shall be binding upon the Company as a whole;

(iv) where an asset or liability of the Company is commonly owned or jointly incurred for the benefit of more than one Fund, such asset or liability, shall be allocated to all such Funds pro rata to the Net Asset Value of each Fund at the time the attribution is made or at such other time as the directors may determine.

10A.3 Without prejudice to what is provided in sub-articles 10A.0 and 10A.1 above, when issuing a class of shares in regard to any Fund, the Directors may, with the consent of the Depositary, allocate Commission, Duties and Charges, and ongoing expenses on a basis which is different from that which applies in the case of shares in other classes in the Fund.

10A.4 Without prejudice to what is provided in sub-articles 10A.0 and 10A.1 above, if the Directors determine that, notwithstanding the foregoing, the assets or liabilities in respect of any Fund shall be attributed to one class of shares on a basis different to that of another class of shares as may be set out in the Company's Prospectus from time to time, the number of undivided parts in the net

assets of the Fund to which each such share shall be entitled shall be adjusted in such manner as the Directors shall, with the consent of the Depositary and the MFSA, determine so as to give effect to the different basis of attribution; provided that in so doing the Directors shall not damage or reduce the participatory rights of existing classes of shares in the Fund or the Company as a whole.

Appendix V

U.S. Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code ('FATCA') impose a 30% withholding tax on certain payments to a foreign financial institution ('FFI') if that FFI is not compliant with FATCA. The Company and the Funds are a FFI and thus, subject to FATCA. Beginning 1 July 2014, this withholding tax applies to payments to the Funds that constitute interest, dividends and other types of income from U.S. sources (such as dividends paid by a U.S. corporation) and beginning on 1 January 2017, this withholding tax is extended to the proceeds received from the sale or disposition of assets that give rise to U.S. source dividend or interest payments.

These FATCA withholding taxes may be imposed on payments to the Funds unless (i) the Funds becomes FATCA compliant pursuant to the provisions of FATCA and the relevant regulations, notices and announcements issued thereunder, or (ii) the Funds are subject to an appropriate Intergovernmental Agreement to improve international tax compliance and to implement FATCA ('IGA'). The Funds intend to comply with FATCA in good time to ensure that none of their income is subject to FATCA withholding.

Malta has signed an IGA with the U.S. and the Funds intend to take any measures that may be required to ensure compliance under the terms of the IGA and local implementing regulations.

In order to comply with their FATCA obligations, the Funds will be required to obtain certain information from their investors so as to ascertain their U.S. tax status. If the investor is a specified U.S. person, U.S. owned non-U.S. entity, non-participating FFI ('NPFFI') or does not provide the requisite documentation, the Funds may need to report information on these investors to the appropriate tax authority, as far as legally permitted. If an investor or an intermediary

through which it holds its interest in the Funds either fails to provide the Funds, its agents or authorised representatives with any correct, complete and accurate information that may be required for the Funds to comply with FATCA or is a NPFFI, the investor may be subject to withholding on amounts otherwise distributable to the investor, may be compelled to sell its interest in the Funds or, in certain situations, the investor's interest in the Funds may be sold involuntarily. The Funds may at their discretion enter into any supplemental agreement without the consent of investors to provide for any measures that the Funds deem appropriate or necessary to comply with FATCA.

Other countries are in the process of adopting tax legislation concerning the reporting of information. The Funds also intend to comply with such other similar tax legislation that may apply to the Funds, although the exact parameters of such requirements are not yet fully known. As a result, the Funds may need to seek information about the tax status of investors under such other country's laws and each investor for disclosure to the relevant governmental authority.

Investors should consult their own tax advisors regarding the FATCA requirements with respect to their own situation. In particular, investors who hold their units through intermediaries should confirm the FATCA compliance status of those intermediaries to ensure that they do not suffer FATCA withholding tax on their investment returns.
